

BIOGRAPHY

Megan Edmunds

Megan is a grade 11 student currently attending Gleneagle Secondary. She is an alumni of the TALONS program at Gleneagle, and continues to harbour a love of being outdoors and helping her community, both locally and globally.

Growing up in a family where pencils and blank paper were readily available, and stories were always in the air, a passion for writing and storytelling was born which would deeply impact her life. She has always written, delving into multiple genres and forms, from novels to poetry. However, she has also dabbled in other art forms, especially sculpting and painting. She commits herself to her schoolwork, loves to dance, and is usually in motion, whether that be around the house or at the studio.

She feels things strongly and is ambitious for the future, wishing to be able to follow a career in writing. Yet in the end, her goal is quite simple: to make a positive difference.

Winning poem

Megan's poem "*Taking Root*" was judged as her best poem. It will be included in the Port Moody Centennial time capsule.
