Dr. Michèle Schmidt

Exhibition opens
October 1, 2015
and closes
October 31, 2015

Dr. Michèle Schmidt is an emerging, self-taught local artist who has been experimenting with fluid acrylics by creating organic, delightful textures and designs while holding canvas board and stretched canvas under water.

Dr. Schmidt is currently an Associate Professor in the Faculty of Education at Simon Fraser University. An accomplished singer/songwriter, she divides her time and energy between her work and creative outlets such as music and painting.
